Camp Stanislaus Is Back!

Camp Stanislaus returned to operation after being cancelled last summer due to COVID-19, The camp, which is open to both boys and girls, is operating at 80% capacity to permit the implementation of COVID-19 prevention and control measures.

Camp Director Sam Doescher said the first week of camp welcomed 171 campers to campus in both day and resident groups. Doescher and his staff have the campers divided into seven different groups – Shrimp, Dolphins, Sharks, Seahorses, Starfish, Swordfish, and Jellyfish.

Both the pier and the ski camp continue to undergo repairs from Hurricane Zeta damage. While that has altered logistics of camp activities, all core activities of camp are offered and available to the campers. Despite the slight tropical disturbance prior to camp, the weather has been outstanding allowing full use of the facilities available to camp. Camp is slated to run through the second full week of July.

Vehicles parked inappropriately or without valid paid parking will be immobilized or towed.

The number of venues, events, and size of crowds continues to grow in downtown Bay St. Louis and the need for parking has grown significantly. As a result, we have seen a substantial increase in non-SSC related cars parking on campus. We have to address this issue in order to continue to provide a sanctuary for our students here.

Saint Stanislaus has engaged with Premium Parking to monitor all parking areas on our main campus (not the athletic complex). If you come to campus you will see Premium Parking signs indicating that parking is restricted and/or a person must pay to park.

Our intention is that anyone (faculty, staff, students, parents, alumni and friends) coming to campus for anything related to SSC will not have to pay to park. We still welcome anyone who is a part of our extended school community to come to visit, so if you come to school please be prepared to give us your license plate number so we can “validate” your vehicle.

We thank you for your understanding in this matter and please know we look forward to your visit!

The STEM Lab at Saint Stanislaus is undergoing a facelift this summer. The old biology lab became the STEM Lab when the first floor was refurbished in 2014. The school used the funds raised from the Benefit Dinner in April to underwrite the project. The work is scheduled to be completed for the beginning of school and will contain many features of a state-of-the-art laboratory and classroom.

Doors To The Way Things Were

During the demolition of the Chapel building last summer, the Saint Stanislaus Alumni Association was able to secure some of the doors to the mezzanine level where the Brothers of the Sacred Heart lived. We have six doors on campus and we are asking $200 per door. If you are building a home or renovating and would like a piece of the Chapel building, this would make a great keepsake. Please note that this is just the door and not the casing which will have to be custom built. The door also has the original hinges. We will not be able to ship the doors so they will need to be picked up from campus. For more information, please contact Joe Gex at (228) 467-9057, ext. 231 or jgex@ststan.com

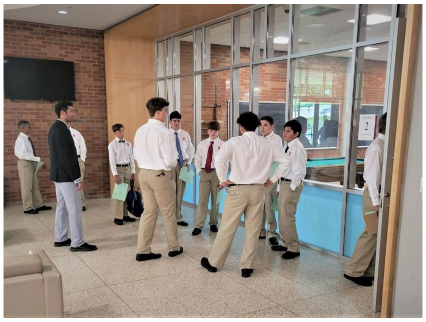
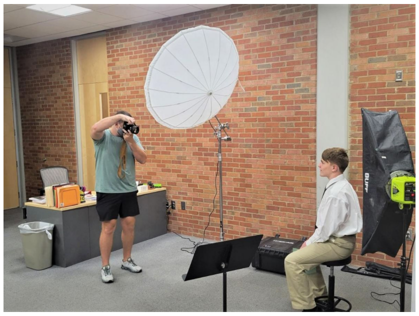
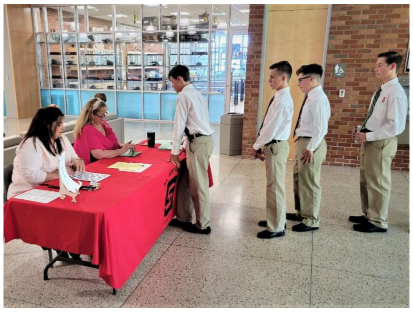
It's the Start of School!







On Thursday, August 5, students again crowded the campus going through orientation - grooming check, taking school pictures, completing forms and so on. Most importantly, seeing each other as well as starting new friendships.

It was a great day to have students on campus and faculty members engaging with them. The first full day of school is today, August 6. As the new school year gets underway, there are more activities planned, and hopefully we will be able to have full capacity at games. It is the beginning of our 168th session and we could not be any happier seeing all the smiling faces returning to campus. Go Rocks!

Pier Restoration Complete

The restoration of the iconic Saint Stanislaus Pier was completed just prior to the beginning of the 2021-22 school year. The pier suffered damage from Hurricane Zeta on October 28, 2020, and supply chain issues stemming from COVID-19 held up the restoration process. With the pier repairs completed, the structure can be used for all facets of school – Marine Science class and research data collection and analysis, fishing, etc.

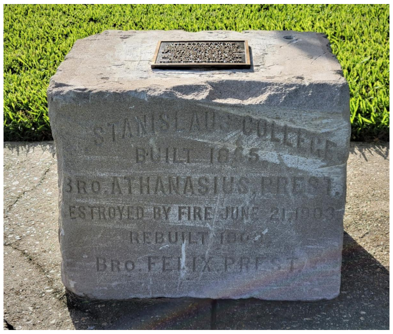
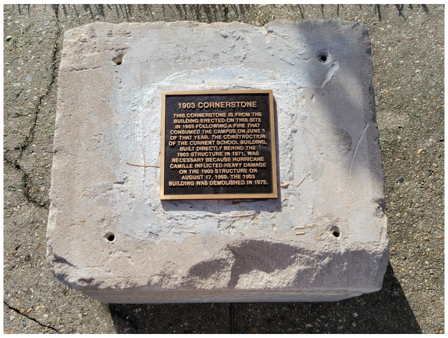
History Finds Its Way Back Home





1903 CORNERSTONE

THIS CORNERSTONE IS FROM THE BUILDING ERECTED ON THIS SITE IN 1903 FOLLOWING A FIRE THAT CONSUMED THE CAMPUS ON JUNE 1 OF THAT YEAR. THE CONSTRUCTION OF THE CURRENT SCHOOL BUILDING, BUILT DIRECTLY BEHIND THE 1903 STRUCTURE IN 1971, WAS NECESSARY BECAUSE HURRICANE CAMILLE INFLICTED HEAVY DAMAGE ON THE 1903 STRUCTURE ON AUGUST 17, 1969. THE 1903 BUILDING WAS DEMOLISHED IN 1972.

The Saint Stanislaus Alumni Association was able to salvage the cornerstone from the 1903 buildings which was being stored underneath the Old Gym prior to its demolition on August 3, 2020. The cornerstone has been placed on the front lawn in the area that the 1903 buildings occupied before they were heavily damaged by Hurricane Camille on August 17, 1969, and demolished in 1972 after the construction of the current school building. The Alumni Association had a new commemorative plaque placed on the cornerstone describing its history.

SSC Sees Enrollment Increase

We started our 168th year with increased enrollment for the first time since 2017. The uptick in enrollment is primarily the result of a 22% increase in the 7th and 8th grades in year over year numbers. The pandemic created challenges for private schools across the country which rely on voluntary funding to keep operations strong. However, it prompted important conversations about the value of class size, personalized instruction, and values-based education like that provided by SSC.

"Last year was tough for many families and students given the uncertainties of the pandemic and remote learning," stated Brother Barry Landry, SC, president of Saint Stanislaus. "We're very excited about the size and quality of this year's student population and grateful for the commitment of our returning families. We believe this reflects confidence in the quality of education we are providing as well as the sense of community that is part of the Saint Stanislaus tradition."

SSC is starting the year with a total of 311 students, which includes 265 day students and 46 boarding students from around the nation as well as Mexico, Asia, South America, and Russia.

Chase Rogers Earns TE Spot at Ole Miss

Former Saint Stanislaus All-American tight end Chase Rogers '17 is the starting tight end for the Ole Miss Rebels. Rogers, a 6'3" 248-lb redshirt junior graduated from SSC in 2017 and signed with the Rajun Cajuns of the University of Louisiana-Lafayette. He transferred to Ole Miss following his freshman season and endured two injuries before earning his first letter at Ole Miss during the pandemic season last year.

Rogers has always been known as a strong blocker but his transformation to the starting role this season was brought along by his development in the passing game. Rogers stated, "I have always enjoyed putting my hand in the dirt and being physical at the line of

scrimmage but my reps have increased because my route-running and speed have progressed. It has been a long road; however, I feel I am where I always should have been. I am looking forward to what this season holds for us."
Ole Miss opened their 2021 season with a 43-24 victory in the Chick-Fil-A Kickoff Classic in Atlanta on Monday, September 6, against Louisville. In the game, Rogers caught two passes for 14 yards. Tomorrow the Rebels will open their home schedule with a game against Austin Peay University at 6:30pm.

Ten more former Rocks on college rosters are TE Darius Pittman '17 (Temple University), QB Myles Brennan '17 (LSU), S JD Rutherford '18 (Southern Mississippi), DT Thomas Weber '18 (Millsaps), WR Dallas Payne '20 (NE Mississippi CC), QB Max Favre '20 (NE Mississippi CC), TE Lee Negrotto '20 (Nicholls State), WR Connor Ladner '21 (Millsaps), WR Nour Tayara '21 (St. Olaf), and Trustin Northington '21 (East Central CC).

SSC Now Accepts Crypto Donations

Saint Stanislaus is now accepting cryptocurrency as gifts towards the Character Fund, Parent Gap Initiative, and other giving opportunities. The school has researched and implemented a dedicated and secure process to accept over fifty types of crypto including Bitcoin and Ethereum.

When asked about donating cryptocurrency to Saint Stanislaus, one donor stated, “The donation of crypto to Saint Stanislaus allows the school to not only own blockchain-based digital assets, but also own a piece of a network that could substantially appreciate in time. Furthermore, as a donor, a crypto gift offers all the same benefits as a traditional monetary donation.”

For more information on cryptocurrency and how to donate to Saint Stanislaus, please contact Brian Murphy, Director of Advancement, at 228-467-9057 ext. 255 or bmurphy@ststan.com

Lt. Colonel John Bezou ’94 (Ret.) recently competed in his first ultramarathon sponsored by racingtheplanet.com and 4 Deserts. Bezou finished the Namib Race that took place May 1-7 in Namibia. An ultramarathon is a 250km (155-mile) race where the runner is self-supported throughout the race. He is attempting the 4 Deserts Grand Slam Plus this year and the Namib Race was the first leg. He will compete in the Republic of Georgia on a 155-mile course through the Southern Caucasus Mountain Range June 19-25. From August 14-20, he will take on the third leg of the series in Lapland (Finland). The Atacama Crossing (Chile) will be held from September 25-October 1. The fifth and final leg of the endurance feat is called The Last Desert (Antarctica) and will take place November 25-December 1.

Bezou is one of six people attempting the feat this year and there have only been eight finishers of this grueling test before. If he is able to complete the feat, he will become just the third American to do so.

Our Mission

The mission of Saint Stanislaus, a Catholic resident and day school for young men, is to form each student to Gospel values by nurturing his spiritual, academic, and physical growth in a place of sanctuary structured to embody the charism of the Brothers of the Sacred Heart.

Strategic Partnerships With Alumni Classes Make Big Impact On Campus

Class of 1992 "Rocks" The Classrooms Of The Future Initiative

What was supposed to be a brief meeting with Saint Stanislaus' Director of Advancement, Brian Murphy, and members of the Class of 1992, turned into a two hour discussion concerning the state of the school, alumni engagement, and how Saint Stanislaus must continue to develop, challenge and embrace the power of our alumni base.

"It became apparent at the start of the meeting that there were underlying concerns and very valid opinions that these classmates had, but, the passion they exuded led us to work in a backwards strategy session," Murphy stated. "Start with the final solution and work back one step at a time to get to the beginning. We did, it worked, and their intensity carried over from the conference room into an amazing (and much needed) philanthropic challenge."

Led by captains Chuck Fanz, Brandon Rhodes, Philip Fasullo, and Johnny Rutherford, the Class of 1992 committed to raising $15,000 to sponsor the retrofit of a classroom as part of this initiative. Three weeks later they achieved their goal.

Philip Fasullo explained why it was important to come back to campus and discuss the past and future of Saint Stanislaus. "To many of us in the Class of '92, it's not just a school, it's our home and will always be our home. So, we felt that it was important to do something special for our home to show how much SSC means to our class. Many of us have children who have attended or currently attend SSC and we want to be able to give them and all current and future students the best possible atmosphere and environment to be able to excel academically, socially and spiritually in the classroom and throughout campus."

Chuck Fanz elaborated "Coming back to Stanislaus is like receiving a hug to the soul. We reminisced about the past, because it is the foundation of who we are today. We look at the present and know there is work left to be done and it is our job to give back to the Brothers and to Saint Stanislaus that is home to so many of us. We want to ensure that Saint Stanislaus has a strong future for the young men who will walk its halls in the future."

The Classrooms of the Future initiative of updating nearly all of Saint Stanislaus' existing classrooms is nearing completion. New flooring for outdated carpets, whiteboards for chalkboards, uniformed teacher desks/bookshelves, and a few Promethean Boards will advance teaching and facilitate increased academic success at Saint Stanislaus. Work began in early June and will be completed prior to the beginning of the 2022-23 academic year.

When asked why the Class of '92 decide to help with this initiative Fanz stated, "When we learned that they were forming classrooms of the future, we knew we wanted to come together and show future generations of Rock-A-Chaws how important it is to give back. Raising funds in honor of the Class of '92 gives us a chance to say thank you for building Men of Character!"

The Class of 1992's generosity has kick started a momentum amongst other Alumni classes to return to the Saint Stanislaus campus and explore an alignment of interests that will produce the most important outcome – to strengthen all that is Saint Stanislaus!

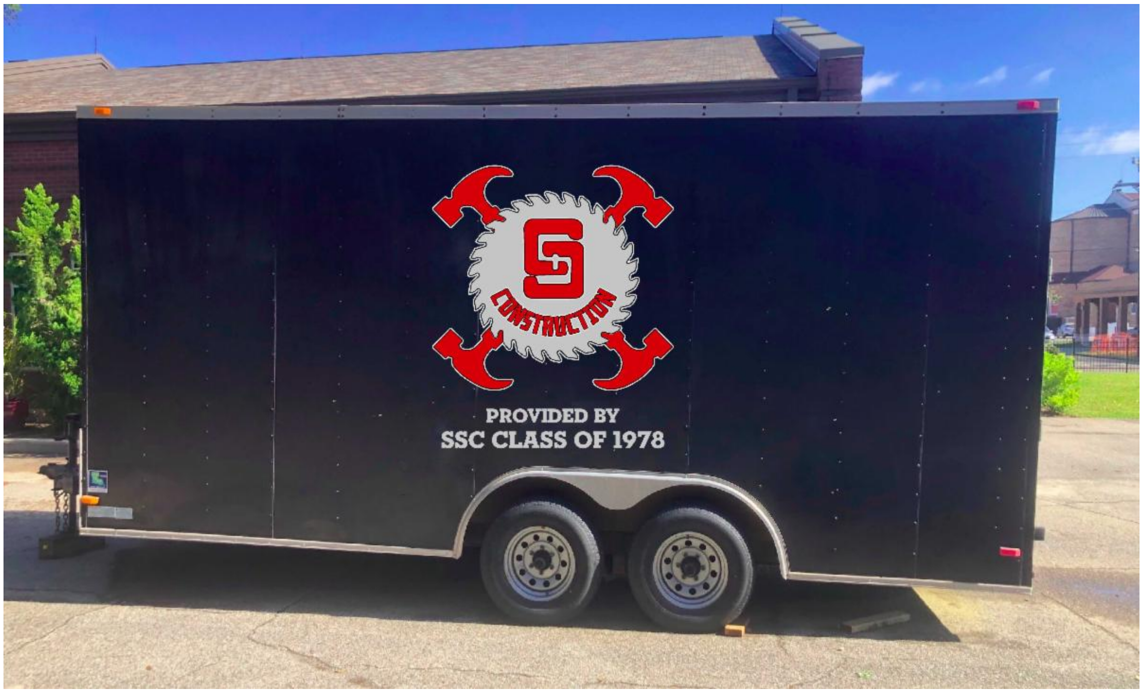
Class of 1978 Bolsters Construction Class Projects With A New Trailer



The Class of 1978 helped raise the funding for the purchase of the trailer to store the equipment for the elective class.

What started out as a casual conversation during last year's annual Golf Outing, quickly developed into how the Class of 1978 could add value to the burgeoning Construction elective at Saint Stanislaus. To set the tone and understand the greatest need, Construction class teacher, Mr. Freddy West, wrote a heartfelt letter to the Class of 1978 explaining the most important need of his class.

Class of 1978 class captains, Jay Rousseau, David Lippman, and Jim Murphy took heed of the call and began to reach out to members of their class – some they hadn't spoken to in years. Their efforts revealed what so many other Saint Stanislaus graduates have in their favor – camaraderie.

Jay Rousseau commented, "The experience of working and reconnecting with our 1978 classmates was fun, rewarding and a real blessing on many levels. My colleagues, Lippman and Murphy, at times had to use some strong arm tactics to raise the funds needed for the construction trailer project, but they came through, as I always knew they would. As we've often said, it's always fun to reminisce with the men of '78, "Stanislaus's Finest," about our years there, hearing old stories that in some cases may or may not have been true! We can honestly say that as a class, we love Stanislaus, the Brothers of the Sacred Heart, Bay St Louis and most importantly being with each other, whenever that's possible, after all of these years!"

The partnership of Saint Stanislaus and the Class of 1978 became evident when the funding phase was completed and Mr. West was able to purchase the new construction trailer. The generosity of the '78 class has already reaped rewards as its use facilitated the completion of several projects including a shed for Ms. Harriet Bellone, long-time SSC religion teacher.

Saint Stanislaus would like to thank the following members of the Class of 1978 who funded this project:

The mission of Saint Stanislaus, a Catholic resident and day school for young men, is to form each student to Gospel values by nurturing his spiritual, academic, and physical growth in a place of sanctuary structured to embody the charism of the Brothers of the Sacred Heart.

TO: ALL ALUMNI, FAMILY AND FRIENDS OF SAINT STANISLAUS
RE: MAKING A GIFT TO SAINT STANISLAUS VIA UNITED STATES POSTAL SERVICE

Good Afternoon,

We are writing today to make you aware that in the last year or so, a number of checks written to Saint Stanislaus have been stolen out of the mail, altered, and cashed by others. This includes checks from various entities including individuals, donor-advised funds, and corporations as well as checks from a variety of locations across the United States. Although we are continually communicating with the USPS and law enforcement agencies regarding this issue, it continues to happen.

This unfortunate situation obviously causes us great concern so we are asking for your help. If you have mailed in a gift in the form of a check through the U.S. Postal Service within the last year and have not received any form of recognition or thank you letter from Saint Stanislaus, please notify us immediately so that we can research the situation and determine if your check was fraudulently cashed.

As ever, we are grateful for your support and remain committed to being good stewards of your trust. If you would like to make a secure gift online, you can do so **HERE** . Also, we would be happy to accept your donation via credit card over the phone by calling (228) 467-9057 x255.

Finally, if you would like to write a check, a member of the Saint Stanislaus Advancement team would be more than happy to stop by, say hello, and pick up the check by hand.

If you have any questions, please contact Brian Murphy (228)467-9057 x255 or bmurphy@ststan.com.

Thank you

Saint Stanislaus was highlighted at the Good Shepherd School annual gala on December 1 at The Cannery in New Orleans. Three students, including two from Good Shepherd School, have attended Saint Stanislaus since eighth grade and have excelled in the classroom, the dorm, and on the athletic fields.

In addition, Good Shepherd School donors have funded over fifty boys and girls to attend Camp Stanislaus during the last five summers.
